

# PROVEN DIGITAL TRANSFORMATION SOLUTIONS FOR FEDERAL GOVERNMENT

AUTOMATE. INTEGRATE. ACCELERATE.

## JUMPSTART YOUR DIGITAL TRANSFORMATION

Since DRS was founded almost 60 years ago, We have successfully completed more than 50,000 document scanning projects with a variety of systems and formats. Our staff of highly-trained professionals is committed to guiding you through the maze of document imaging, scanning, and management. We're also experts in compliance and security heavy projects.

We're the federal government digital solutions experts with state-of-the-art enterprise content management and document management software to support your digitization efforts.

DRS leverages strategic partnerships with industry leaders, such as Canon, Kodak Alaris, Psigen, Docuware, and many more, applying technological innovation to achieve cost-effective solutions.

## OUR CAPABILITIES

### FAST & ACCURATE DOCUMENT SCANNING

We convert virtually any physical document—for any and all federal departments—into easily searchable and shareable digital files that meet compliance requirements and provide a truly permanent archive.

### CAPTURE THE DATA IN HANDWRITTEN DOCUMENTS

We have the technology and expertise to capture information from even hand-written records, such as presidential papers with no manual data entry. We use OCR, Optical Mark Recognition (OMR) and Intelligent Character Recognition (ICR) to extract information from even hard-to-read documents.

### DATA PROCESSING

We streamline, accelerate, and purify your data from both structured and unstructured documents before you insert it into your business processes.

### ENHANCE SECURITY

Digital documents are much more secure than paper. Access can be limited to only those who need it.

## CORE SERVICES FOR FEDERAL GOVERNMENT DEPARTMENTS

### OPTICAL SCANNING

Our advanced technology means even faded, difficult to decipher paper documents, microfilm, microfiche, and aperture cards can be digitized.

### RECORDS MANAGEMENT

Store files securely, provide fast and easy access, and comply with regulations with Cloudkeeper, secure cloud-based SaaS document storage and management software.

### INFORMATION TECHNOLOGY SOFTWARE

Our Mercury enterprise content management software digitizes workflows to streamline manual processes and reduce compliance risk.

### DATA CONVERSIONS

Index and visualize data based on attributes, content and context and perform keyword searches in seconds and view results in a user-friendly interface.
